

MNICS AIR OPERATIONS WORKING TEAM – 2013 ASSIGNMENT WORKSHEET # 15 Approval of Canadian Assets—Tom Remus

ISSUE: Preapproval of Canadian aviation assets.

BACKGROUND: Canadian aviation assets working beyond existing agreements of federal lands require a memo of approval. This would be done annually to accept their national and provincial standards of government owed aircraft.

RECOMMENDATIONS / EXPECTED PRODUCT: There is a concurrent effort being done for a national memo which is being worked on in DOI. We propose that we assist national staff in this effort until such a time that the region must forge ahead on its own with Great lakes and Northeast Compact partners.

A. Implementation Plan: Remus will work with NIFC staff until Mid-January at that time he and David Serena will assess. If it appears unlikely the national effort will succeed, we will work with R9 Aviation Staff and the EACG to outline the effort.

B. Tasked to:
