Transition Plan

- + +trainees - DIOS + ORZ - need to commit to training
- + look within your agency + recruit future trainees ^{encourage + mention}
- + USFS - more qualified DIOS in agency, but some not on MNIC's roster for various reasons
- + there is support for trainees on MNIC's teams, but must be approved by host agency
- + discussed the need to get more TFD's(+) in the pipeline

Team SOP's

- need to update + add the 9 line medical plan in + revise procedures
- suggestion - form a committee - safety, MED, air ops, etc to look @ + revise medical section

Communications Update:

- + There is a need to have a std set of freqs assigned so that the Nat'l Guard can spool up quicker for short incidents. ASGS could order up national freqs for longer assignments.
- + would pre-load these in the aircraft. A/C + A/A

DIOS or Eastern Area

Will be testing the new cross-barrel (black box) at
