

2020 Aviation Safety Alert

4/3/2020

Subject: Change in A/G Frequency – A/G 70 no longer authorized

A/G 70 is no longer authorized for use in the Great Lakes Compact Area and has been replaced with A/G 22 (168.400). This change is effective immediately. This will require an update to all handheld, mobile, aircraft radio's and previously distributed frequency cards. Please share this change with employees, vendors, and ensure that this is covered during briefings with new crews. Post this alert at all bases and aviation facilities.
