Structure Protection

We've got a large pile of information. Also I found a statewide WUI guideline from 2004.

Lots of discussion with Henry and here's what we're looking for.

Examples to help us set expectations.

- Sprinklers
- Triage
- Point Protection
- Structure engines without wildland quals can only work on structure fires not the wildland fire.

Examples of structure protection as it relates tactically to suppression of the fire.

Single Resource Boss Refresher

Mr. Fasteland is looking for agenda items. Go direct to Tom with comments.

June 9th @ MIFC is the Tentative date.

I'm meeting with the Taskforce March 17th. If you have any comments/examples please get'em to me by the evening of the 16th.
