- Cause Comments

Completing the Fire in FRBS

Location tab is considered incomplete because:

- Est. Start can't be blank
- Initial Attack can't be blank

Your data is saved, but the report is not yet complete.

Main tab is considered incomplete because:

- Primary Fuel Consumed can't be blank
- Initial Report to DNR by can't be blank
- Fire behavior can't be blank
- Responsible party can't be blank

Your data is saved, but the report is not yet complete.

Suppression Costs tab is considered incomplete because:

- No suppression costs have been recorded, and the box indicating that no suppression costs were incurred has not been checked.

Your data is saved, but the report is not yet complete.

WildCAD Incident Report PDF's can be added as files to replace the IC's Summary Reports
